*Top partner in the world !*

## Advantage

Company positioning: to be a reliable partner of air quality test

company Product positioning: stable quality, reasonable price

Customer positioning: Air quality testing company,

Value Proposition: High standardization, 5-year warranty

Image positioning: practical, good matched with other parts.

Core Advantage:

Reliable quality, Fast response, On time delivery, Reasonable cost.

Best Quality, Most Choice , Fast Delivery, Lowest Price!

**20+** 20 years exporting trade experience

**15** 15 years production experience in AIR SAMPLER

**6000** 6000 square meter workshop , with advanced production equipment, reliable supply chain

**80** More than 80 dedicated and reliable staffs

Leader with far-sighted and perseverance

Our team is full of passion and energy

Standard product ,uniform packing, batch production

Have the ability of secondary development of products
